# Perfecting Our Craft

For nearly 175 years, Maple Knoll Communities has provided the tools necessary for older adults to live longer, healthier and happier lives.

Programs and services that impact over 33,000 individuals, ranging in ages from 3 to 107 years old, are provided through our two retirement communities Maple Knoll Village and The Knolls of Oxford, Maple Knoll Outreach Services for Seniors, two affordable HUD Senior Living Residences, WMKV/WLHS 89.3 & 89.9 FM Radio Station, a Montessori Child Center, the Hemsworth Wellness Center and a partnership with Ohio Living Home Health & Hospice.

## Mission Statement

Maple Knoll Communities, Inc. is recognized as a growing provider of outstanding senior communities and services that allow those we serve to thrive in a stimulating and dignified environment. This will be accomplished through creativity and responsible fiscal stewardship.

## Vision Statement

Maple Knoll strives to deliver the best lifestyle possible through its comprehensive options, amenities, and services. Maple Knoll strives to create the best time in life for its residents, clients and members.

*"What you leave behind is not what is engraved in stone monuments, but what is woven into the lives of others."*

## Dear Friends and Supporters,

This past year, Maple Knoll Communities continued to focus on executing the right strategies, partnerships, and action plans to ensure that we remain well positioned to serve in the future. We can proudly say that the pandemic no longer defined our year. Instead, our work of enriching the lives of those we serve overshadowed COVID-19 concerns, and we saw a sense of normalcy return to our campuses.

Occupancy began to return to pre-COVID levels and waiting lists grew at both campuses. Discussions on future Independent Living expansion opportunities began as studies have shown that 1 in 4 adults will be the age 60 or older by 2025.

Over the past year, we saw changes in key leadership positions with the retirement of Jim Formal. We remain committed to our mission and are invested in the growth of our services. Providing the best resident and staff experience is vital to the success of our organization in an ever-changing market.

What we do is only possible because of the support of our residents, staff, families, volunteers, and community partners. Our campuses benefited from more than 14,000 volunteer hours showing the impact our organization can have when working with the community. So much of what we have accomplished, and will continue to accomplish, is done through building strong relationships with donors and by embracing mutual respect. Fundraising efforts once again proved fruitful as donations soared to over \$2,000,000 during this fiscal year alone.

In a year of ongoing challenges, Maple Knoll has continued our commitment to strategically plan for the future and aligning with like-minded organizations to better serve our communities. What had functioned well in the past, required updating. The question was, and continues to be, "what services, facilities and relationships do we need to meet the needs of our current residents and prepare for the future?"

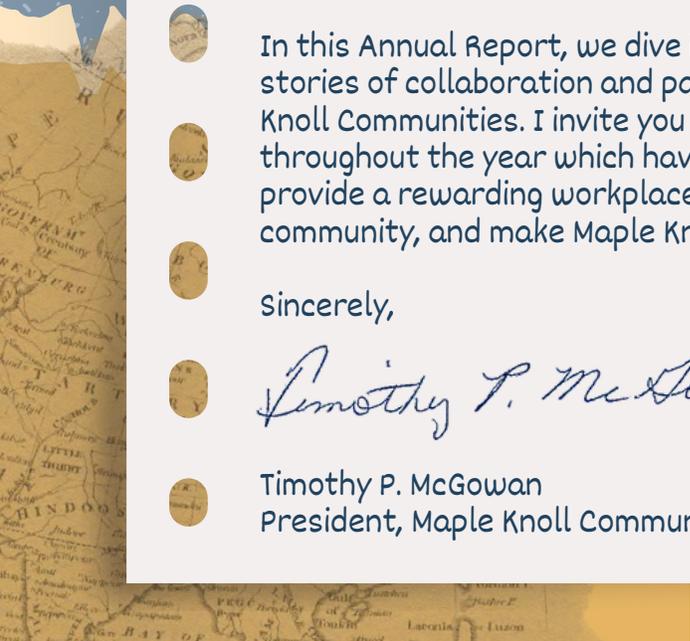

As we look towards the future, we are excited to combine efforts with BHI Senior Living to develop innovation, create efficiencies, and improve the overall quality of care across our campuses. This unique partnership sets us up with a blank canvas to create our own future, however we see best defined.

In this Annual Report, we dive into these concepts as we share the many stories of collaboration and partnership throughout the prism of life at Maple Knoll Communities. I invite you to join us on our journey and revisit memories throughout the year which have allowed us to improve programs and services, provide a rewarding workplace, strengthen the outreach of senior care in the community, and make Maple Knoll Communities the best place to retire.

Sincerely,

Timothy P. McGowan  
President, Maple Knoll Communities, Inc.

"In the long history of humankind, those who learned to collaborate and improvise most effectively have prevailed."  
- Charles Darwin

# Spotlight on Leadership

In July of 2022, Tim McGowan was appointed as the new President of Maple Knoll Communities, Inc. Tim took the place of Jim Formal who served as President and CEO of Maple Knoll Communities, Inc. for nearly 20 years. During that time, Jim was instrumental in the addition of new programs and services which helped place Maple Knoll Communities as a top senior care provider in the nation.

Before Tim's new role, he served as The Knolls of Oxford Executive Director, then as the Chief Operating Officer and Executive Vice President of Maple Knoll Communities for 17 years. His career in long-term care began nearly 40 years ago working as a nursing assistant while pursuing his undergraduate degree from Denison University. Tim later obtained his Masters in Health and Hospital Administration from Xavier

University. Before joining Maple Knoll Communities, Tim served as an Administrator at numerous senior care facilities, represented District VIII on the Board of the Ohio Health Care Association, and also previously held a non-voting seat on the Association of Ohio's Philanthropic Homes for the Aging Board.

Under Tim's leadership, Maple Knoll has soared to new heights and implemented numerous innovative programs which are being duplicated across the nation.

In addition to his efforts at Maple Knoll, Tim has been active within several civic and service organizations. As President of Maple Knoll Communities, Tim will focus on strategic planning and enhancing partnerships, including an affiliation with BHI Senior Living, to ensure Maple Knoll's success for another 175 years.

## Binding Together

### Maple Knoll Communities: A BHI Affiliate

Going back nearly three years ago, The Maple Knoll Communities' Board of Directors began looking at growth strategies for the organization. Our mission calls for us to be a growing provider, so planning for growth has always been an exercise in which we are engaged. After countless months and even years of strategic planning, it was decided that growth through the pursuit of partnering with like-minded, mission-oriented Senior Care organizations was the optimal choice.

Partnerships are nothing new for our organization. Over the years there are many examples of Maple Knoll pursuing these types of affiliations such as partnerships with an insurance collaborative, Miami University, University of Cincinnati, home health care organizations, and many more which have allowed us to expand upon our services.

Our Board of Directors carefully started the process of developing criteria and characteristics that we desired in potential partners which included items such as similar missions and cultures,

financial strength and more. Fortunately, a long-standing relationship between BHI Senior Living and MKC added additional confidence to the decision to affiliate.

BHI and Maple Knoll Communities have long histories dating back to 1848 for Maple Knoll Communities and 1904 for BHI, respectively; and they share similar non-profit missions, care-centered cultures, and structures. In 1952, BHI opened its first Continuing Care Retirement Community-Hoosier Village in Indianapolis. Today, BHI Senior Living has seven CCRCs in Indiana and one in Michigan. Each community provides high-quality, maintenance-free residences; a full continuum of healthcare services, including assisted living, memory care, skilled nursing, and rehabilitation services; and a fulfilling lifestyle for active seniors.

The affiliation will allow us to further our joint missions of delivering senior care across Ohio, Michigan and Indiana. Together we will be looking at the potential growth of independent living on both our campuses as well as potential new campuses, expanded programs and services and renovating outdated spaces.

John Dattilo, CEO of BHI

“There is a moment when your dreams and your memories merge together and form a perfect world.”

“We are thrilled to be affiliating with BHI Senior Living to further strengthen our communities,” states Tim McGowan, President of Maple Knoll Communities. “Senior Care organizations are experiencing constant change and future-focused organizations need to be open to creative ideas in order to be sustainable. Affiliating BHI Senior Living with our organization aligns with our strategic growth plans to expand our mission and we are extremely excited to work together to make our successful organizations become even stronger.”

John Dattilo, CEO of BHI, shared “BHI has considered several organizations for strategic partnership, but joining with Maple Knoll Communities represents a special opportunity. Both organizations are closely aligned culturally and both have long histories of exemplary service to seniors. This affiliation makes both organizations better and strengthens our ability to deliver our missions for many decades into the future. We could not be more excited about all the possibilities as we move forward together.”

# Sustainability Efforts

## Maple Knoll Communities Administration and Residents Stencil in a Focus on Going Green

Maple Knoll Village and The Knolls of Oxford know the importance of going green and intertwine sustainability into their everyday actions and plans. The journey towards becoming a greener and more sustainable community started from the top with a commitment from Administration. In December of 2020, Maple Knoll Village's newest construction, the Coventry Court expansion, was named a Leader in Energy and Environmental Design for Homes awardee with Platinum status, the highest LEED level of certification through the U.S. Green Building Council.

Following the lead of Maple Knoll management, an Arboretum Committee at Maple Knoll Village was created when a group of residents saw the beauty of our 54-acre campus filled with many species of trees and lush greenery and wanted to create an enhanced awareness of trees and plant life for everyone on campus. To ensure that people can enjoy and utilize the benefits trees provide, the arboretum committee's priorities are to protect existing trees, increase the selection and diversity of species, and improve planning, standards, and care for trees.

Becoming a more sustainable community has always been a high priority for Maple Knoll Village as we are continuously planning for the future. Since the founding of the Maple Knoll Village Arboretum, there has been an increased campus-wide interest on improving Maple Knoll Village's efforts to go green. This motivated another group of residents to launch a new sustainability committee.

"Memories are the key not to the past, but to the future."

– Corrie ten Boom

## Snapshots of Living Sustainably

While the committee is still very new, residents have already been hard at work brainstorming innovative ways our campus can reduce our carbon footprint and teach fellow residents how they can live more sustainable lives. Resident efforts include the recent creation of a shared vegetable and herb garden that is planted and maintained by the MKV Community Garden Club. Committee members are also devoted to educating their neighbors on how their use of electricity, water, and gas affects the environment and utilities at Maple Knoll in monthly resident newsletters and publications.

The Sustainability Committee worked with local St. Xavier High School students this past year to conduct a carbon footprint study of Maple Knoll Village. Committee members were able to attend the St. Xavier High School engineering student presentations in person and were thoroughly impressed with how informed and educated the students were in their studies and recommendations. Plans are already in place to implement many of their ideas and continue this partnership well into the future.

Involving the community in sustainability efforts is very important and plans for the Architectural Design Professor from the University of Cincinnati DAAP School to present the concept of green roofs to the Sustainability Committee is already underway. Future goals of the committee include securing funding from resident and public

gifts as well as environmental grants, identifying clear short-term and long-term goals, and researching electric alternatives for the Maple Knoll Village company fleet vehicles.

Not to be outdone, The Knolls of Oxford worked with a donor, who happens to be a Miami alum, to purchase six electric golf carts for the campus. These eco-friendly vehicles are used by staff to cut down on The Knoll's eco-footprint. Residents also worked with management to implement additional environmentally friendly options such as reusable take-out boxes, recyclable paper products, and reusable water bottle fountains.

Maple Knoll Communities continues to evaluate efforts toward creating a more sustainable community for current and future residents.

## Innovation at Maple Knoll Communities

The future of senior living is bright, and at Maple Knoll Communities we are leveraging technology to engage residents.

Every day we see an increasing requirement to adapt to the changing needs of seniors. Our strategic planning has allowed us to write a future that honors the past and boldly propels us into the future.

This has included the deployment of CarePredict, a technology platform that includes smart wearable devices to indicate potential health declines, location insights, staff alerts, and communications. The system will also allow for future expansions to include off-site GPS tracking, keyless door entry, and point-of-sale systems.

Other technological advancements such as a corporate Verizon phone plan for residents, updated wifi, new firewalls, app enhancements, and the addition of online assessment tools, have greatly improved the opportunities for residents, families, and staff to enhance their daily tasks.

An innovation highlight this year included Maple Knoll Communities earning an award in the National McKnight's Excellence in Technology Awards. The program is a joint production of McKnight's Long-Term Care News, McKnight's Senior Living, and McKnight's Home Care.

The long-running program honors providers that convey how technology has improved care and operations in their organizations. Maple Knoll Communities was named a Bronze Winner in the Quality Category for Technology. The award was granted due to the efforts taken by Maple Knoll to ensure that residents had timely access to healthcare providers, particularly during the COVID-19 pandemic.

During this time, Maple Knoll Communities began leveraging technology such as Cisco WebEx, Doximity, and Skype to deliver virtual visits and care, using tablets as endpoints. Maple Knoll then adopted a single platform that allows for the use of smartphones, tablets, computers, and medical carts dedicated specifically for telehealth purposes. The new telehealth solution from Netsmart allowed for the opportunity to schedule an initial intake or recurring appointments with residents. Clinicians gained access to launch telehealth sessions from within the electronic health records system and streamline billing. Within the system, clinicians can set their availability, monitor the virtual waiting room and be notified when residents arrive. From the more robust telehealth system, Maple Knoll Communities expects to see improved patient outcomes and increased patient engagement and satisfaction via a more comprehensive experience.

Looking into the future, Maple Knoll will stay at the forefront of delivering services through innovative ways for years to come.

"Our investments in Telehealth and integrations of care is just the beginning of our commitment to improving the lives of our residents through technology."

- Mark Plunkett, Senior Corporate Director of Information Technology

*The Best Memento*

With so many misconceptions surrounding senior living communities and older adults, many people view senior living communities in a negative light and look at older adults as having mundane, inactive lifestyles.

The active, bright, and out-of-the box media presence of Maple Knoll Communities' programs and services has helped to dispel these misconceptions regarding seniors through numerous national accolades this year.

## Awards Won July 2021 - June 2022

“This is a well-deserved honor for a provider that clearly has taken extra steps to distinguish itself and the care of its patients,” said McKnight’s Senior Living Editorial Director John O’Connor.

## A Walk Down Memory Lane:

A year in  
the life at  
Maple Knoll  
Village  
& The  
Knolls  
of Oxford

Home is more than a shelter of walls and windows: it provides comfort and security with people you trust, and our staff across Maple Knoll Village and The Knolls of Oxford, recognizes this and works to craft the perfect experience.

Resident enrichment surveys were given to gain insight into resident satisfaction and to further enhance offerings. Individual departments took the feedback back to the drawing board to incorporate new ways to meet the needs of our residents and offer new services.

These efforts paid off and independent living remained at a high occupancy level at both campuses. Expansion plan discussions began at Maple Knoll Village, and the city of Oxford was named a top place to retire, an indication of future growth to come.

As part of our strategic planning process, we started interior and exterior renovations and improvements at both Maple Knoll and The Knolls. Inspired changes included the renovation of the Bistro on the Green at Maple Knoll Village, the addition of a 24-hour marketplace, an enhanced salon, Auditorium renovations at The Knolls of Oxford, and new pavement and roofing at both campuses.

Maple Knoll Village and The Knolls of Oxford work diligently to encourage residents to get involved and engage with others in the community regularly. Those wanting to focus on fitness had the opportunity to do so via Maple Knoll's state-of-the-art wellness center featuring a warm water pool and whirlpool. Land and water classes provided for numerous opportunities to exercise the body and mind. At The Knolls of Oxford, shuttle buses to Miami University's Recreational Center, combined with onsite fitness classes set the background for an active lifestyle.

Engagement was both a challenge and an opportunity at a time when families and staff were still faced with concerns related to the pandemic. But what does not challenge us does not change us and we embarked on a journey to find new ways to engage our communities. From overnight trips to see fall foliage in West Virginia, a visit to Mansfield and shopping excursions to Easton the activities departments spent the year planning outings and in-house activities for Maple Knoll and the Knoll's residents to enjoy. Other highlights included trips to Cincinnati's top restaurants, betting on horses at Keeneland, theaters, museums, and hiking in some of the Great Parks of Hamilton County.

The ambassador program continues to serve as an opportunity for residents to get involved with campus events and provide prospective residents with an inside look at daily life at Maple Knoll. Ambassador duties involve working the welcome desk in the marketing department, mingling with prospective residents at marketing events, and assisting with special programs and projects on an as-needed basis.

We fostered a connection with the Greater Cincinnati and Oxford communities as we continue to work with community partners such as Wyoming High School, Talawanda Schools, Fortis College of Nursing and more to provide intergenerational relationships across the region.

# Journal Entries

"We sought a simpler life that allowed us to enjoy all the things that really matter to us. Our life is fuller because it is simpler. At TKO we can spend our time on the "want to's" because the "have to's" are taken care of."

- Kathryn McGrew, Knolls of Oxford resident

"We are most thankful for the safety here and the prompt work of Maple Knoll to provide us with access to the vaccines on site."

- John and Louise Bower, Maple Knoll Village residents

"It takes a moment to make memories and a lifetime to forget them."

- Andy Mineo

"If you are bored it is your own fault because there are so many activities to choose from!"

- Sue Sorensen, Maple Knoll Village resident

## Healthcare Services: Providing the right tools in the right setting

Skilled Nursing Healthcare Services at Maple Knoll Village and The Knolls of Oxford bridge the gap between hospital and home and provide physician-directed care. Staff members assist individuals needing transitional services after a hospital visit, requiring rehabilitation, recovering after an injury or, dealing with a chronic illness. This year, Maple Knoll Village's Bodmann Skilled Nursing received a completely renovated spa/shower room on the long-term care wing as well as new call panels on all floors.

Our excellent care is reflected in our quality awards and state survey results. Both campuses received a total of 18 state surveys with no citations from The Ohio Department of Health over the past 24 months. Campuses also boast high resident vaccination rates ranging from 98-100%.

Support services aim to bring independence and dignity to those we serve. Residents don't let healthcare challenges define them, they let our services refine them. Maple Knoll opened the new memory support wing in Assisted Living. The unique space offers 7 resident apartments, game areas, a gardening center, separate dining space, living room, dedicated entrance and individualized activities based on cognitive abilities. The space also features healthcare staff around the clock to provide the opportunity for hands on support, care and guidance.

Maple Knoll's Breese Manor Assisted Living followed suit of The Knolls of Oxford and became a pet friendly Assisted Living community. The Knolls campus began the conversion of an older memory unit to a new, state-of-the-art rehabilitation wing. With the use of technology those experiencing minor cognitive issues can now integrate into the general population preventing the pitfalls of isolation while experiencing a first-class stay.

At both campuses, you will often find residents in healthcare services skydiving or traveling to Venice via their Virtual Reality headsets, enjoying a manicure, or trying out a new hobby like gardening or painting proving that residents can thrive in any setting within Maple Knoll Communities.

"The team in the hospice unit took such good care of my Dad. I am forever grateful!"— Deb Kreilein, resident family member

"I can speak for our entire nursing class that we have loved being a part of the Maple Knoll community this semester. From day one it was evident that everyone here loved working here and also living here. It really is a family atmosphere."

- Eva Nester, 3rd year University of Cincinnati College of Nursing student

## Providing Experience for the Future: FORMAL UNIVERSITY AFFILIATIONS

For nearly two decades, Maple Knoll Communities has helped prepare a manuscript for tomorrow's leaders through formal affiliations with Miami University and The University of Cincinnati. These affiliations have provided the next generation with hands-on experience that is beneficial to both residents and the students. Not only do the affiliations provide social, recreational, and educational opportunities, but it also allows students and staff to pursue innovative research in areas that directly affect our residents. Together, these two generations can make a lasting impact by embracing technology and creative, quality programming throughout our communities.

Both campuses saw the benefits of an intergenerational Tech Program. The program connects residents with university staff for educational tech classes as well as one-on-one student support for tech needs.

Maple Knoll Village residents participated in the popular University of Cincinnati's College of Medicine's "Tell Me Your Story" program which received national recognition in a journal publication. University of Cincinnati faculty and staff continued to enhance research efforts by working with Maple Knoll Village on projects related to employee health and wellness, drone technology and more. A team member was asked to join an advisory board with the University of Cincinnati research study for a Mental Health & Well Being for Long Term Care workers. Collaboration efforts continued as Maple Knoll was featured in a second published journal piece, this one on Retirement Community Sleep Health Assessments. A highlight of the year occurred when College of Nursing students held a campus-wide health fair for residents and staff. The same students participated in rounds through each healthcare department at Maple Knoll Communities, providing them with intergenerational relationships and real-world experience for the future.

### Maple Knoll Village and the University of Cincinnati Affiliation

#### Affiliation Vision Statement:

We will shape the future of healthcare and promote the best lifestyle possible for older adults.

#### Affiliation Mission Statement:

Create a nationally recognized interdisciplinary learning partnership for students, faculty, practitioners, employees, and researchers that strives to enhance the quality of care and services for older adults. We will further the missions of the University of Cincinnati and Maple Knoll Communities by fostering a sustainable program of innovation, research, and practice.

University of  
CINCINNATI

Miami University students and faculty jumped at the opportunity to integrate with The Knolls residents as restrictions were lifted across the campuses. The Miami University Glee Club reinstated their on campus concerts and The Knolls proudly sponsored an Alumni Virtual Cooking Demo. This unique partnership allows residents to enjoy continuing education like the Institute for Learning in Retirement (ILR) as well as on site presentations.

Recently, a new collaboration called the First Gen program was launched. This exciting new partnership is between first generation college students at Miami and TKO residents who are also first generation college graduates.

The Knolls of Oxford resident George Beverley was honored by Miami University with The Kevin Kuethe Spirit of Tradition Award. The award honors one alumnus of the Miami University Men's Glee Club who exemplifies the spirit of the Glee Club through continued and demonstrated engagement, including service and devotion, to current members and alumni of the group. Aaron Steckman, Maple Knoll Communities' Infection Preventionist, was recognized on-field at a Miami University football game which honored frontline workers.

*"Working with the residents gives me a greater appreciation of Oxford and its diversity. It's pretty easy to forget that while we live in a college town, it is not only a college town - it is home to people of all ages and of all walks of life."*

*- Jennifer, a Miami University student currently working in The Knolls Assisted Living Activities Department*

*"This semester has really opened my eyes to gerontology. I had no experience previously and the Maple Knoll team gave me the opportunity to practice patient education in an environment that I was unfamiliar with previously. I am forever grateful!"*

*- Annabelle Gonnella, third year University of Cincinnati College of Nursing student*

*"For me, being able to be involved in Oxford, Miami University, church, the rec center and activities is a big advantage and fosters connection with the world beyond on our own TKO community."*

*- Connie Wilkins, Knolls of Oxford resident*

*Making*  
THE GRADE

"I'm listening online from Ottawa, Canada. Love the music, special programs, Big Band, Beatles, and of course the old radio shows. They keep me company every day of the year."

-Marcia, WMKV/WLHS Listener

## WMKV/WLHS 89.3 & 89.9FM: The Sound of a Memory

The past fiscal year proved to be a year of growth for WMKV/WLHS through mixed media and a plethora of projects. This included the Music Mobile at Maple Knoll Village and The Knolls of Oxford, attending senior events as we come out of the pandemic, and listener surveys of musical interests which have expressed a love for the old format with the addition of the songs of the '60's and '70's that other radio stations are not playing.

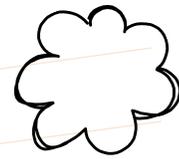

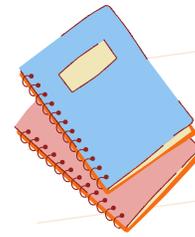

Among the new programs added this year were: Ticket To Ride: An Hour with the Beatles, That 70s Hour, One Hit Wonders with Dan Sweeney, an award-winning program from California, and a general influx of some soft '70's hits that dovetails with our other musical offerings, allowing a generational interchange as families listen and enjoy songs that made their memories, while making new ones for younger listeners.

Branching out in the community included the formation of unique partnerships adding to the playlist including Cincinnati Museum Center, the Cincinnati BBB, Lakota Local School District, Jazz Alive!, Learning Through Art, the Cincinnati Jazz Hall of Fame, and more, strengthening WMKV's community impact.

WMKV 89.3FM continues to simulcast on WLHS 89.9FM and has seen increased listenership on smartphones and smart speakers. Technological advances have allowed for WMKV/WLHS apps on Android and iPhones, plus for those with Amazon Echo devices or other smart speakers, listeners have the option to simply say "Play WMKV!"

Listenership reached a high of 31,000 and a recent check of on-line listenership identified that in one week more than 6,000 people from around the U.S., with additional on-line listeners in Canada, Finland, Brazil, Germany, Mexico, the U.K., Italy and the Philippines, tuned in merging international memories and bringing Maple Knoll Communities to a worldwide audience!

# Seeking Adventure at The Maple Knoll Montessori Child Center

"I love when Mr. John comes and reads us stories"

-Ronan, student age 5

The Maple Knoll Montessori Child Center, located within Maple Knoll Village, provides a caring, educational environment for children ages three to six. From Monday through Friday, students walk through our doors to engage in a Montessori curriculum that includes physical development, social development, emotional well-being, mental growth, and spiritual development. However, what sets the Child Center apart from other programs is the wealth of opportunities for intergenerational engagement between the children and older adults living at Maple Knoll Village.

The Child Center spent the year igniting a passion for learning while developing important life

while developing important life skills. Enrollment increased by 60% with 24 students joining from across the Tri-State region. Four residents volunteered throughout the year provided a combined total of over 200 hours which included reading to the children, participating in joint activities, teaching them how to play musical instruments, and more.

The Child Center took center stage when voted Best Preschool 2021 by the Non-Profit of the Year Awards and also Best Preschool by Cincinnati Magazine's 2021 Best of the Best awards. We began to empower our next generation of philanthropists as the students stole the show with a special performance at The Maple Knoll Village Arboretum Dedication ceremony.

# Creating Experiences with Maple Knoll Outreach Services for Seniors

Maple Knoll Outreach Services for Seniors (MKOSS) brings together programs and services which allow people with significant physical and cognitive limitations to live in their home or a home-like setting and remain integrated with the community. The mission is to help individuals maintain their independence for a happy and healthy lifestyle where they are in control. The most requested and utilized programs to support homebound seniors are Meals on Wheels and Senior Transportation.

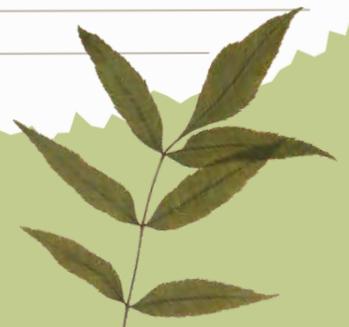

This year MKOSS touched the lives of nearly 850 older adults in 35 Greater Cincinnati communities. A nutritious meal is only the start of the value Meals on Wheels can deliver to keep our community members healthy. With the help of approximately 100 trained volunteers, MKOSS delivered over 85,000 meals in the community to 426 clients. The transportation department logged an impressive 46,000 plus miles to provide nearly 8,500 client trips to medical and therapy appointments as well as grocery stores, pharmacies and social service agencies.

Outreach staff and volunteers continue to be the “eyes and ears” in the homes of at-risk seniors. Connecting seniors to services and each other is the cornerstone of the MKOSS operation. Throughout the next fiscal year, volunteer recruitment and fundraising efforts will continue to assist in expanding our commitment to serving additional seniors in new and creative ways.

*“Life is good thanks to your wonderful meals, especially on holidays. I just love the people who deliver them so much and feel love back from everyone.”*

*- Virginia, MOW client since 2020.*

## Journal Entry

"I love it here, I truly do. I like it when we get new books in the library, I enjoy the exercise groups with my friends, the bingo and all the other stuff we have going on around here. But most importantly, I feel safe and listened to."

- Kay Francis. Resident since 2014.

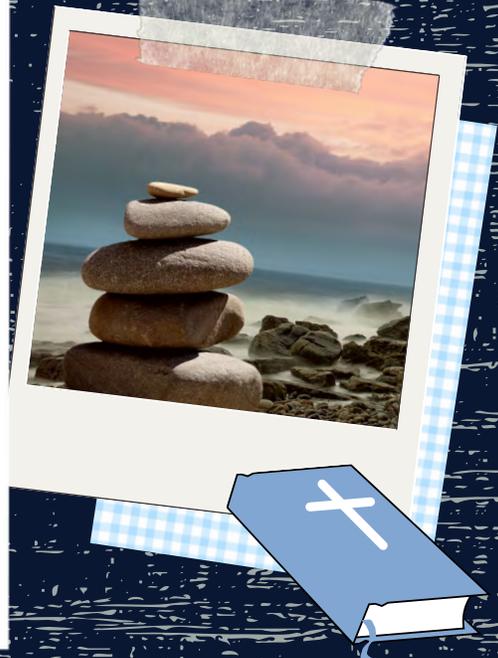

## Setting the Scene for new Adventures with HUD Operations

Maple Knoll Communities is proud to support seniors who are living on limited income through subsidized housing options provided by HUD, the Federal Department of Housing and Urban Development.

Access to decent, affordable housing provides critical stability for families and lowers the risk that vulnerable families become houseless. The number of houseless and unstably housed seniors is projected to grow, creating serious health consequences as they often face declining incomes, increased medical costs, and housing that may not be designed for their needs.

Maple Knoll helps to meet this need by offering two quality affordable housing with loads of services to promote better mental and physical health, improved quality of life, and independence for low-income seniors. Our modern affordable housing attracts a wide, diverse range of residents and is built of quality that matches or sometimes exceeds that of market-rate housing. We currently have 94 units that 95 seniors proudly call home. By going above and beyond with our housing opportunities, residents had the ability to make and maintain small but impactful changes to help ensure they thrive, not just survive.

# Building Memories with Spiritual Services

The Spiritual Life Department continues to plan for the future and looks to add additional volunteers to continue to spread love, joy and happiness to our ever growing and evolving community. Currently, programs are intertwined within both campuses and encompass support for more than 1,100 residents and 425 staff members.

Highlights of the year included the expansion of the Grief Support Group, the addition of 16 new Spiritual Life volunteers and the reinstatement of in-person Sunday worship services, Catholic Mass, Bible study, Celebrating the Rosary and Holy days. The Happy Café expanded and new themes helped the participants to find meaning, joy, and resilience throughout the year. Quarterly, they were given the opportunity to demonstrate what they had learned by paying it forward to their community. Some examples were: Post-it-Note Tuesdays to promote positivity among the staff and their neighbors and thoughtful cards which were delivered to each employee.

Residents were surveyed to ensure we are providing them with the necessary tools to create an exceptional spiritual experience. Results depicted excitement in the reopening of services and the opportunity to implement additional spiritual programs to better support the needs of the campuses.

*"The Spiritual Life department has been a godsend to me. To be a part of a workplace community that is spirit led inspires me to give my all faithfully."*

*-LaMont Spencer, Maple Knoll employee*

*"Thank you for all that you do to enhance our Spiritual Life. The blessings of your ministry are touching us all."*

*- Margaret & Jim Sherlock, Maple Knoll Village residents*

# Telling Our Story: Maple Knoll Communities' Employees

Maple Knoll Communities recognizes that an outstanding resident experience is made possible as a result of an exceptional employee experience. Because of this, Maple Knoll works continuously to ensure the 425 employees working within our communities have the support and services they need to succeed in their roles. This has led to a quarter of the workforce serving as employees for 10 years or more, something unheard of in healthcare.

This year management provided numerous unforgettable experiences such as luncheons, fall festivals, a week of thankfulness, canned food drives, a Wish Giving Tree, Candy Cane Grams, food trucks, coffee trucks, a Super Bowl party, weekly gas card drawings, donation drive to assist those in Ukraine, a weeklong celebration during National Nursing Home Week and many more.

*"We didn't realize we were making memories, we just knew we were having fun."*

*- A.A. Milne*

Each happiness of yesterday is a memory for tomorrow.

Human Resources and the Employee Appreciation Team highlighted inclusivity throughout the year by honoring special events and hosting open discussions on improving workplace acceptance. In February we celebrated Black History Month with a theme of "Connecting the Past to the Present" honoring those who made a difference in black history as well as those who contributed as inventors, authors and more.

As an organization we celebrated Pride Month with 30 days of support and celebration of the LGBTQ+ community. A Trivia Game competition enlightened and brought awareness to employees and residents. Juneteenth was celebrated with a luncheon catered by a local black owned restaurant with education on its importance accompanying.

An onsite Resource Navigator program, which began late 2020, continues to be a success and assisted with over 100 employee inquiries this fiscal year. This program offers a coach who specializes in financial, government and other types of assistance.

# Employee Memoirs: The many hands involved in guiding, nurturing & creating essential services for our seniors

Verna Cook

Verna is a State Tested Nursing Assistant (STNA) and has worked in Bodmann Skilled Nursing Pavilion at Maple Knoll Village for four years. Her favorite part of the job is the residents and her coworkers. Taking care of people can be a very rewarding job. The residents are truly like family to Verna and her coworkers. Her fellow STNAs on the floor are all a part of one big team. Having a team that supports you and looks after you whenever you're having a bad day is what sets Maple Knoll Village apart from other employers.

Tina has worked at The Knolls of Oxford for five years as Chef of the Clubhouse. Her favorite part of working at The Knolls of Oxford would be the residents and her co-workers. She loves getting to know the residents and feels like they are a part of her family.

Tina Edwards

Cordaisha recently became the Admissions Coordinator for Bodmann Skilled Nursing Pavilion. Cordaisha loves the people she works with, especially the residents. She learns something new every day and the residents at Maple Knoll Village make her feel like her life has a purpose. She has plans to further her education in healthcare administration.

Cordaisha Stevenson

Rayven is the Social Work Designee at The Knolls of Oxford. She has a degree in Psychology from Miami University and plans on continuing her education so that she can earn her Social Workers License. In her role, she interviews residents, assists with insurance, charting, and advocates for the residents to make sure they are heard and receive the best care possible during their time at The Knolls of Oxford. She is proud to be a voice for the residents because they are what makes the job worth it.

Rayven Frazier

# Creating a Template for the Future

## Maple Knoll Communities' Foundation Board Leadership

Maple Knoll Communities is blessed with a passionate and enthusiastic oversight team consisting of professionals well-seasoned in the world of business and philanthropic activities.

The Maple Knoll Foundation Board of Directors possess years of applied experience in a variety of business enterprises, from service industries to manufacturing and industrial enterprises, and from administrative vocations to the nonprofit world.

They all have one thing in common—they are focused on Maple Knoll's mission of positively improving the lives of older adults within our communities and beyond.

These key individuals will forever be etched in our history.

*"I have thoroughly enjoyed my years of service with Maple Knoll, especially working on the annual fund and serving on the Board of Trustees. It has been rewarding to be supportive of the Maple Knoll culture, which is all about giving the best possible care to the residents. It has been wonderful to work with such a talented and committed group of people. My experience has been very educational and a lot of fun!"*

- Fred Robbins, Chairman of the Maple Knoll Communities Foundation

*"Over my almost 20 years as President and CEO of Maple Knoll Communities, I have been so humbled by the generosity of everyone who supported our programs and services. The impact our leaders and supporters' immense generosity has had on those we serve cannot be measured. Please accept my deepest thanks for everything you've done and continue to do for the residents of Maple Knoll Communities and our community. I look forward to seeing Maple Knoll continue to grow with your support!"*

Senior Director, Maple Knoll Outreach and HUD Operations

# Investing in the Next Generation

## Maple Knoll Communities Financials

While this challenging operating environment will persist for some time spurred by the ongoing pandemic, nursing reimbursement changes and staffing shortages across the industry, we remain confident in the future growth of Maple Knoll Communities.

Even during the most challenging times, we delivered the highest quality experience possible and as an organization worked diligently to keep costs down and persevered. Moving forward we will combine our fiscal responsibility with the power of partnership and collaboration to deliver on the Maple Knoll legacy and promise of high-quality care.

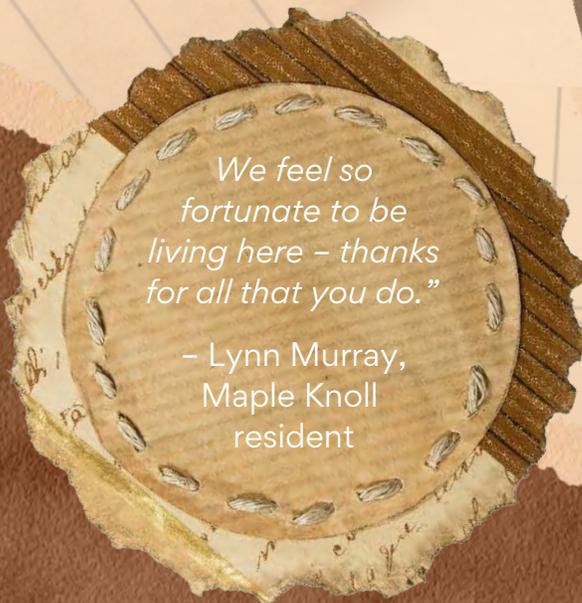

"The long-term legacy was a factor in selecting Maple Knoll, as well as the friendliness of people and the beautiful campus."

-Diane Becker, Maple Knoll resident

### 2022 UNCOMPENSATED EXPENSES

Benevolent Care	\$503,000
Cost of Healthcare in Excess of Reimbursements	\$3,774,000
<b>Total</b>	<b>\$4,277,000</b>

*We feel so fortunate to be living here - thanks for all that you do."*

- Lynn Murray,  
Maple Knoll  
resident

# Maple Knoll Communities Donors: The glue that keeps us together

At Maple Knoll Communities, we are inspired by the generosity of our donors and by their commitment to the quality of life for older adults throughout the community. Their contributions to the lives of those we serve are invaluable. With deep gratitude, we say thank you for your support. Your partnership matters and we rely on the generosity of our community to support our mission of enhancing the quality of life for those in our care and within our facilities.

Donations help improve the lives of our residents and clients in countless ways: outstanding care & services, educational & social programs, support for families & loved ones - and so much more. Fundraising efforts were boosted to accommodate the challenges of COVID-19 and our ever-changing world. We were buzzing around as we amplified outreach and our Meals on Wheels program, increased corporate and foundation asks, organization education in partnership with the Fairfield Community Arts Center and much more.

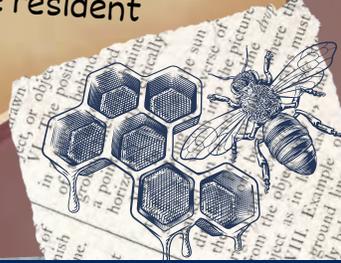

"I know that MKV is a major player in the Cincinnati area. Their commitment and generosity as a benefactor is outstanding! I am pleased and proud to support it."

- Tom Hamant, Maple Knoll Village resident

Chairman Dave Wallace and Development Staff set a high goal of \$1.5 million for the Annual Fund Campaign with a theme of "Bee the Change". Together with 40 Giving Circle Leader volunteers, the group was able to exceed the goal, ending the year with \$2,193,997, 146% over the set goal.

The hard work proved worthwhile as the Development Program had its most successful year to date, further attesting that our supporters see that Maple Knoll Communities is the "Best Place to Bee". This total was achieved through an impressive 8,569 gifts from 1,716 donors.

Additional fundraising for capital projects has been accomplished for the Chapel Expansion Fund, Arboretum Founders' Endowment Fund, TKO Auditorium Fund and the COVID-19 Fund to enhance the lives of our residents at both campuses.

*"Giving does not only precede receiving; it is the reason for it. It is in giving that we receive."*

Gifts of \$250 or more received from July 1, 2021 - June 30, 2022

"I choose to donate because I care about my fellow residents and want to ensure they have a safe home in the future."

- Nancy M. Coletta, Maple Knoll Village resident

'Your memory is the glue that binds your life together; everything you are today is because of your amazing memory.'

- Kevin Horsley

Leaving  
a  
Legacy

Many of our community members, who deeply believe in our mission, have made a lasting impact through a planned gift. These gifts allow you to create a lasting legacy representing your lifelong values and aspirations while planning for your own future as well as that of your loved ones. At Maple Knoll Communities, we are fortunate to have had over 200 caring individuals who have furthered the work of our organization. Alone, each person has made a significant impact, but collectively, they have the power to make miracles happen, by ensuring that our mission of providing quality care

and services to older adults will endure well into the future for our children and grandchildren.

These visionaries are members of a special group called the Living Legacy Society. The "Living Legacy Society" was founded to recognize those individuals who make a gift in a special way. This select group consists of special friends who have named Maple Knoll Communities in their estate plans, made a planned gift or contributed a substantial amount in outright gifts.

*"All good men and women must take responsibility to create legacies that will take the next generation to a level we could only imagine."*

This fiscal year we were honored to induct 30 individuals who share in Maple Knoll Communities' mission and vision, as the newest members of the Living Legacy Society and already have new inductees to celebrate next year.

These individuals are:

### Maple Knoll Village

Barb and John Bloomstrom  
Barbara and Robert DeSalvo †  
Lou and Dean Gaudin  
Richard † and Jean Haley  
Ron and Trish Hanna  
James and Pat "Anna" Heyser  
Jim Imholte and Mark Kacher  
Resident Enrichment Committee  
(formerly known as Maple Leaf Auxiliary)  
Eileen † and Braden Mechley  
Charles † and Nell Stanforth  
Dorothy Vice †  
Kathryn Weinrich

### The Knolls of Oxford

Charles and Marjorie Bowers  
Jim and Joanne Formal  
Don and Jane Kelly  
Timothy McGowan  
Kristin and Jim Stahl

† - in memory of

"A picture is worth a thousand words, but a memory is priceless."

"Maple Knoll does so much good for so many, I want to be part of that."  
— Margaret Gibbons, Maple Knoll Village resident
